

# Running an NVSL Scoring Table

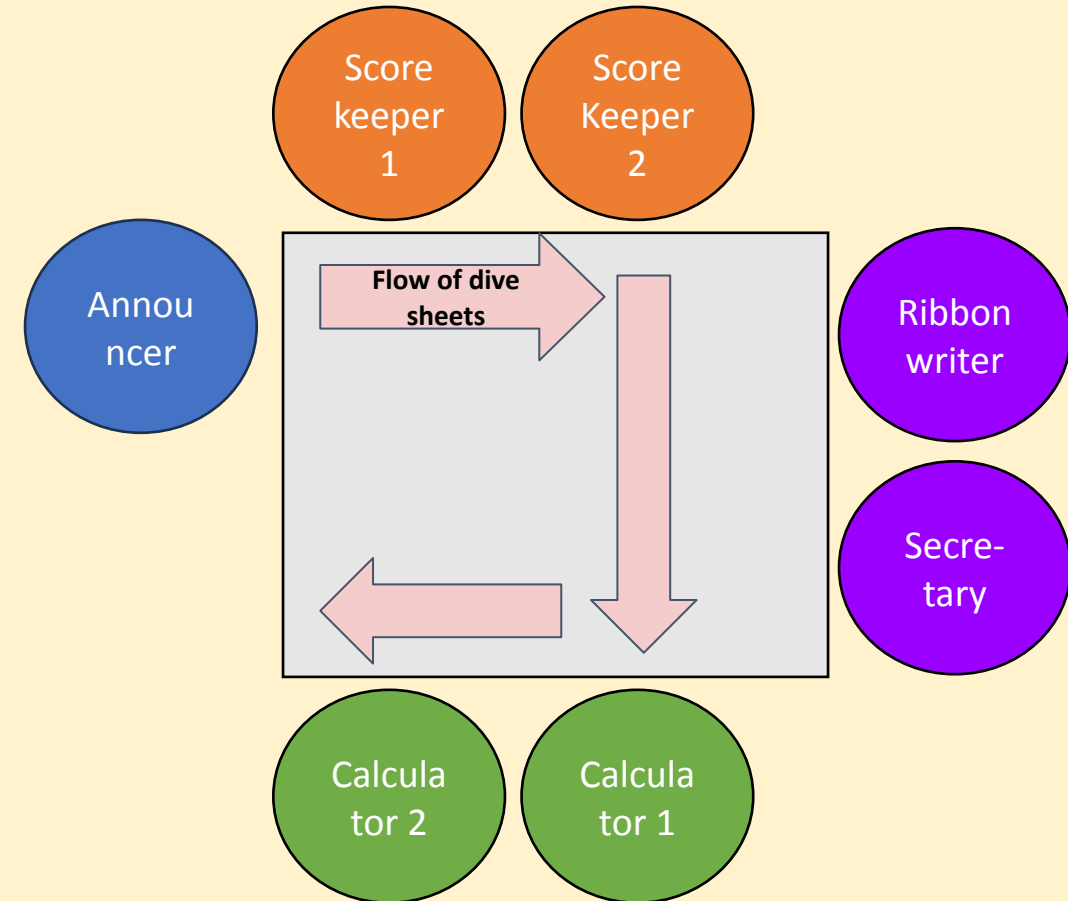

# Scoring Table Set-up

- A scoring table requires five people: **Announcer**, **Scorekeeper 1**, **Scorekeeper 2**, **Calculator 1** and **Calculator 2**
- Scoring tables can be arranged in many different physical configurations according to pool custom, but they need to have this group of people arranged in this order for the sheets to circulate properly.

# Ribbon Writer and Secretary

- This job can be combined or separated and/or grouped with the sheet runner job
- Before the meet:
  - Check the dive sheets for DD and order of dives with referee
  - Enter the divers and their group in the google score sheet
  - Put dive sheets in order alternating teams with home team starting first
  - Write order of divers at the top of the sheet
  - Count the number of divers in each category and combine categories if needed after consulting the the team reps, coaches and referee.
- During the meet:
  - Once the group is on the last dive
  - Record the results on the google sheet meet results page and on the ribbons
  - Put the sheets in order of highest score to lowest score
  - Record the final place on the bottom right of the score sheet and on the ribbons
  - Put the results in reverse order (lowest score first) and hand the results to announcer
  - Once the announcer hands back the sheets, paper clip or staple the ribbons to the meet sheets
- At the end of the meet:
  - Tell the announcer the meet results
  - Separate out the two teams ribbons and sheets into separate piles
  - Give the visiting team their team sheets and ribbons
